QUESTIONNAIRES

User Requirements Questionnaire for Graduates

Welcome

This survey is carried out by a Masters student in Universiti Sains Islam Malaysia in order to identify the user requirements for the Integrated Graduate Portal (IGP) to be developed for facilitating graduate marketability.

What is the Integrated Graduate Portal?

The Integrated Graduate portal is an online environment proposed in order to create mutual interaction between the lecturers, graduates, employers and university administrator in any university and likewise aid in marketability of graduates. The environment can be accessed through the use of a web browser. The IGP will present graduates' e-portfolios i.e. compilation of their work, skills and accomplishments, employers and their employment requirements and also serve as advisers and mentors for the graduates, lecturers as tutors and advisers to the students and the university administrators as the administrator of the portal. The Integrated Graduate Portal is purposed to be set up and customized according to each user's requirement.

Why is it important to me?

The survey provides you as a user the opportunity to widen the coverage of the portal and have a portal which is developed according to the requirements specified by the users.

What will be done with the results?

After the results have been collated, it will be analyzed and used to produce a set of requirements that will be used in the development and the implementation of an Integrated Graduate Portal prototype.

Section 1: Personal Information

Your age is between

18-21

21-24

25-28

29 and above

Year in School

1

2

3

4

Would you be interested in using an Integrated Graduate Portal which is developed for facilitating student marketability?

Yes

No

Indifferent

How often do you use the web during the working week?

Every day- four hours or more

Every day- less than four hours

Several times a week

Section 2: ICT Skills

What is your computer experience?

1 year or less

2 to 4 years

5 years or more

How comfortable do you feel using Computers in general?

Very comfortable

Comfortable – I can do most things I want to do

Neither comfortable nor uncomfortable

Uncomfortable

How comfortable do you feel using the Internet?

Very comfortable – I can do everything that I want to do

Comfortable – I can do most things I want to do

Neither comfortable nor uncomfortable

Uncomfortable – I cannot do many things I would like to do

Very uncomfortable - I cannot do most things I would like to do

How often do you use the internet?

Under 1 hour per day

1-3 hours a day

3-6 hours a day

More than 6 hours per day

Section 3: Tasks the IGP should support

Please rate how important the following activities are for you as a graduate.

	Essential	Very Important	Important	Somewhat Important	Not Important
Find and acquire information such as employers and lecturers information					
Share, upload or archive information such as students resume, videos, seminars and trainings					
Create user relationship with other users such as friends, lecturers mentors and followers					

Other activities

Please list other key tasks you will like to be made available for you.

Section 4: General behaviour of the Integrated Graduate Portal

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1st	2nd	3rd	4th	5 th
Easy login page					
Access software and information from anywhere					
I can customize the interface and functionality that I use					
Have a portal that is easy to use, with little need for help					
Ability to download files in different format such as Word, Excel, JPEG, MP3 and others.					
Enables my department to set default options and create user accounts					

Additional comments

Please provide any extra comment

Section 5: Possessed Skills

Please rate the skills you possess as a student.

	Essential	Very Important	Important	Somewhat Important	Not Important
Integrity					
Motivation					
Positive Attitude					
Self-Management					
Responsibility					
Presentation					
Communication					
Team/ Group Outcomes					
Tech Savvy					
Work Ethic					
Customer Service					
Written Communication					
Numeracy					
Using Tools and Technology					
Problem Solving					
Planning, Organizing and Implementing					

Other activities

Please list other skills you possess that were not listed.

Section 6: Employer Requirements for graduates

Please rate how important any of the following employer requirements are for you to be aware of as a student.

	Essential	Very Important	Important	Somewhat Important	Not Important
Required skills					
Job Requirements					
Information on training and workshops					
Computer knowledge requirements					
Certificate Requirements					
Professional courses requirements					
Internship or work placements					

Additional comments

Please provide any extra comment

Section 7: Lecturers Requirements

Please rate how important any of the following lecturers' requirements are for you as a student.

	Essential	Very Important	Important	Somewhat Important	Not Important
Evaluation form					
Recommendation Letter					
Reference Letter					
Lecturers' Attestation					
CV/Cover letter evaluation					

Additional comments

Please provide any extra comment

Section 8: Data sharing among all users

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Sharing and handling large files					
Files to have version control so that they can be safely changed under multiple authorship					
Control over who can view or modify shared files					
Enforce all users to use the same application in order to view or manipulate data or files					
When shared data has been modified or added, group members should be notified automatically					

Section 9: Functionality to assist collaboration

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Online chat for real-time communication					
Private messaging					
Discussion Forum					
Groups					
User Relationships					
Blog					
Collation/digest of e-mail groups					
Desktop videoconferencing					

Section 10: Setting up collaboration

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
I want to be able to easily set up teams and groups					
Ability to locate other potential users with similar interests					
Support for building new interest groups					
Mechanism to find lecturers and employers with specific expertise					
Ability to be able to rate other users' contents					
Ability to be able to comment on other users' profile or content					

Additional comments

Please provide any extra comment

Section 11: Mechanisms for being kept up to date

Rank the mechanisms by which you wish to be kept up to date on functions, resources, and other information.

	1 st	2 nd	3 rd
A What's New page when you logon to the Research Portal			
An e-mail alert containing information that I specify when it becomes available (e.g. updates on students or lecturers portfolio)			
An e-mail alert containing links to information that I specify when it becomes available (e.g. update on students skills or cv)			

Your perception of the requirements set

How applicable are the features identified earlier in this questionnaire to your student needs?

Spot on

Good coverage

Meets some needs

Irrelevant

Does the features set presented seem complete?

Yes

No

N/A

Additional comments

Please provide any other comments, including capabilities that you would like to see as part of the Integrated Graduate Portal.

APPENDIX B

User Requirements Questionnaire for Employers

Welcome

This survey is carried out by a Masters student in Universiti Sains Islam Malaysia in order to identify the user requirements for the Integrated Graduate Portal (IGP) to be developed for facilitating graduate marketability.

What is the Integrated Graduate Portal?

The Integrated Graduate portal is an online environment proposed in order to create mutual interaction between the lecturers, graduates, employers and university administrator in any university and likewise aid in marketability of graduates. The environment can be accessed through the use of a web browser. The IGP will present graduates' e-portfolios i.e. compilation of their work, skills and accomplishments, employers and their employment requirements and also serve as advisers and mentors for the graduates, lecturers as tutors and advisers to the students and the university administrators as the administrator of the portal. The Integrated Graduate Portal is purposed to be set up and customized according to each user's requirement.

Why is it important to me?

The survey provides you as a user the opportunity to widen the coverage of the portal and have a portal which is developed according to the requirements specified by the users.

What will be done with the results?

After the results have been collated, it will be analyzed and used to produce a set of requirements that will be used in the development and the implementation of an Integrated Graduate Portal prototype.

Section 1: Personal Information

Organization:

Profession:

Your work experience in your primary activity

1 year or less

2 years to 4 years

5 to 10 years

10 years and above

Would you be interested in using an Integrated Graduate Portal which is developed for facilitating student marketability?

Yes

No

Indifferent

How often do you use the web during the working week?

- Every day- four hours or more
- Every day- less than four hours
- Several times a week

Section 2: ICT Skills

What is your computer experience?

- 1 year or less
- 2 to 4 years
- 5 years or more

How comfortable do you feel using Computers in general?

- Very comfortable
- Comfortable – I can do most things I want to do
- Neither comfortable nor uncomfortable
- Uncomfortable

How comfortable do you feel using the Internet?

- Very comfortable – I can do everything that I want to do
- Comfortable – I can do most things I want to do
- Neither comfortable nor uncomfortable
- Uncomfortable –I cannot do many things I would like to do
- Very uncomfortable - I cannot do most things I would like to do

How often do you use the internet?

- Under 1 hour per day
- 1-3 hours a day
- 3-6 hours a day
- More than 6 hours per day

Section 3: Tasks the IGP should support

Please rate how important the following activities are for you as an employer

	Essential	Very Important	Important	Somewhat Important	Not Important
Find and acquire information such as students e-portfolio, lecturers					

information					
Share or archive information such as students resume, videos, seminars and trainings					
Create user relationship with other users such as friends, mentors and followers					
Other activities

Section 5: Required Skills To be Possessed by Graduates

Please rate how important the following skills are for you as an employer

	Essential	Very Important	Important	Somewhat Important	Not Important
Integrity					
Motivation					
Positive Attitude					
Self-Management					
Responsibility					
Presentation					
Communication					
Teamwork					
Tech Savvy					
Work Ethic					
Customer Service					
Written Communication					

Other activities

Please list other skills you will like to be made available for you.

Section 6: Students' E-portfolio Content

Please rate how important the following e-portfolio contents are for you as an employer

	Essential	Very Important	Important	Somewhat Important	Not Important
Resume					
Possessed Skills					
Professional Mission statement					
Goals					
Samples of related work experience					
Testimonials					
Recommendation letters					
Awards and honours					
Voluntary service					

records					
List of references					
Educational Qualifications					
Blog or website					
Transcripts					
Cover letters					
Written work					
Research Projects					
Presentations (video and audio)					
Internship					
Courses and Description					
Professional courses taken					
Extra-curricular activities					
Business plans & Research Proposals					

Other activities

Please list other contents you will like to be made available for you.

Section 7: Lecturers Requirements

Please rate how important any of the following lecturers’ requirements are for you as an employer.

	Essential	Very Important	Important	Somewhat Important	Not Important
Evaluation form					
Recommendation Letter					
Reference Letter					
Lecturers Attestation					

Section 8: Data sharing among all users

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Sharing and handling large files					
Files to have version control so that they can be safely changed under multiple authorship					
Control over who can view or modify shared files					
Enforce all users to use the same application in order to view or manipulate data or files					
When shared data has been modified or added, group members should be notified automatically					

Section 9: Functionality to assist collaboration

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Online chat for real-time communication					
Private messaging					
Discussion Forum					
Groups					
User Relationships					
Blog					
Collation/digest of e-mail groups					
Desktop videoconferencing					

Section 10: Setting up collaboration

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
I want to be able to easily set up teams and groups					
Ability to locate other potential users with similar interests					
Support for building new interest groups					
Mechanism to find lecturers with specific expertise and students within the university					
Ability to be able to rate other users' contents					
Ability to be able to comment on other users' profile or content					

Additional comments

Please provide any extra comment

Section 11: Mechanisms for being kept up to date

Rank the mechanisms by which you wish to be kept up to date on functions, resources, and other information.

	1 st	2 nd	3 rd

A What's New page when you logon to the Research Portal			
An e-mail alert containing information that I specify when it becomes available (e.g. updates on students or lecturers portfolio)			
An e-mail alert containing links to information that I specify when it becomes available (e.g. update on students skills or cv)			

Your perception of the requirements set

How applicable are the features identified earlier in this questionnaire to your employer needs?

- Spot on
- Good coverage
- Meets some needs
- Irrelevant

Does the features set presented seem complete?

- Yes
- No
- N/A

Additional comments

Please provide any other comments, including capabilities that you would like to see as part of the Integrated Graduate Portal.

APPENDIX C

User Requirements Questionnaire for Lecturers

Welcome

This survey is carried out by a Masters student in Universiti Sains Islam Malaysia in order to identify the user requirements for the Integrated Graduate Portal (IGP) to be developed for facilitating graduate marketability.

What is the Integrated Graduate Portal?

The Integrated Graduate portal is an online environment proposed in order to create mutual interaction between the lecturers, graduates, employers and university administrator in any university and likewise aid in marketability of graduates. The environment can be accessed through the use of a web browser. The IGP will present graduates' e-portfolios i.e. compilation of their work, skills and accomplishments, employers and their employment requirements and also serve as advisers and mentors for the graduates, lecturers as tutors and advisers to the students and the university administrators as the administrator of the portal. The Integrated Graduate Portal is purposed to be set up and customized according to each user's requirement.

Why is it important to me?

The survey provides you as a user the opportunity to widen the coverage of the portal and have a portal which is developed according to the requirements specified by the users.

What will be done with the results?

After the results have been collated, it will be analyzed and used to produce a set of requirements that will be used in the development and the implementation of an Integrated Graduate Portal prototype.

Section 1: Personal Information

Sex

Male

Female

Your age is between

20-30

31-40

41-50

51-60

60 and above

Would you be interested in using an Integrated Graduate Portal which is developed for facilitating student marketability?

Yes

No

Indifferent

How often do you use the web during the working week?

Every day- four hours or more

Every day- less than four hours

Several times a week

Section 2: ICT Skills

What is your computer experience?

1 year or less

2 to 4 years

5 years or more

How comfortable do you feel using Computers in general?

Very comfortable

Comfortable – I can do most things I want to do

Neither comfortable nor uncomfortable

Uncomfortable

How comfortable do you feel using the Internet?

Very comfortable – I can do everything that I want to do

Comfortable – I can do most things I want to do

Neither comfortable nor uncomfortable

Uncomfortable – I cannot do many things I would like to do

Very uncomfortable - I cannot do most things I would like to do

How often do you use the internet?

Under 1 hour per day

1-3 hours a day

3-6 hours a day

More than 6 hours per day

Section 3: Tasks the IGP should support

Please rate how important the following activities are for you as a lecturer

	Essential	Very Important	Important	Somewhat Important	Not Important
Find and acquire information such as employers and lecturers information					
Share, upload or archive information such as students resume, videos, seminars and trainings					
Create user relationship with other users such as friends, lecturers mentors and followers					

Other activities

Please list other key tasks you will like to be made available for you.

Section 4: General behaviour of the Integrated Graduate Portal

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1st	2nd	3rd	4th	5th
Easy login page					
Access software and information from anywhere					
I can customize the interface and functionality that I use					
Have a service that is easy to use, with little need for help					
Enables my department to set default options and create user accounts					

Additional comments

Please provide any extra comment

Section 5: Required Skills

Please rate how important you think the following skills are for the students as a lecturer

	Essential	Very Important	Important	Somewhat Important	Not Important
Integrity					
Motivation					
Positive Attitude					
Self-Management					
Responsibility					
Presentation					
Communication					
Team/ Group Outcomes					
Tech Savvy					
Work Ethic					
Customer Service					
Written Communication					
Numeracy					
Using Tools and Technology					
Problem Solving					
Planning, Organizing and Implementing					

Other activities

Please list other skills you will like to be made available for you.

Section 6: Employer Requirements for graduates

Please rate how important any of the following employer requirements are for the graduates to be aware of.

	Essential	Very Important	Important	Somewhat Important	Not Important
Required skills					
Job Requirements					
Information on training and					

workshops					
Computer knowledge requirements					
Certificate Requirements					
Professional courses requirements					
Internship or work placements					

Additional comments

Please provide any extra comment

Section 7: Data sharing among all users

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

APPENDIX D

User Requirements Questionnaire for Administrators

Welcome

This survey is carried out by a Masters student in Universiti Sains Islam Malaysia in order to identify the user requirements for the Integrated Graduate Portal (IGP) to be developed for facilitating graduate marketability.

What is the Integrated Graduate Portal?

The Integrated Graduate portal is an online environment proposed in order to create mutual interaction between the lecturers, graduates, employers and university administrator in any university and likewise aid in marketability of graduates. The environment can be accessed through the use of a web browser. The IGP will present graduates' e-portfolios i.e. compilation of their work, skills and accomplishments, employers and their employment requirements and also serve as advisers and mentors for the graduates, lecturers as tutors and advisers to the students and the university administrators as the administrator of the portal. The Integrated Graduate Portal is purposed to be set up and customized according to each user's requirement.

Why is it important to me?

The survey provides you as a user the opportunity to widen the coverage of the portal and have a portal which is developed according to the requirements specified by the users.

What will be done with the results?

After the results have been collated, it will be analyzed and used to produce a set of requirements that will be used in the development and the implementation of an Integrated Graduate Portal prototype.

Section 1: Personal Information

Organization:

Profession:

Your work experience in your primary activity

1 year or less

2 years to 4 years

5 to 10 years

10 years and above

Would you be interested in using an Integrated Graduate Portal which is developed for facilitating student marketability?

Yes

No

Indifferent

How often do you use the web during the working week?

Every day- four hours or more

Every day- less than four hours

Several times a week

How long the graduate's data should be kept on the Integrated Graduate Portal website?

2 year or less

3 to 4 years

5 years or more

Which of the following academic division should be included in the running of the Integrated Gradual Portal activities?

School of Undergraduate Studies

School of Postgraduate Studies

Both of them

None of them

Section 2: ICT Skills

What is your computer experience?

1 year or less

2 to 4 years

5 years or more

How comfortable do you feel using Computers in general?

Very comfortable

Comfortable – I can do most things I want to do

Neither comfortable nor uncomfortable

Uncomfortable

How comfortable do you feel using the Internet?

- Very comfortable – I can do everything that I want to do
- Comfortable – I can do most things I want to do
- Neither comfortable nor uncomfortable
- Uncomfortable –I cannot do many things I would like to do
- Very uncomfortable - I cannot do most things I would like to do

How often do you use the internet?

- Under 1 hour per day
- 1-3 hours a day
- 3-6 hours a day
- More than 6 hours per day

Section 3: Tasks the IGP should support

Please rate how important the following activities are for you as a site administrator

	Essential	Very Important	Important	Somewhat Important	Not Important
Manage graduates, lecturers and employers profiles					
Add New Services related to all stakeholders					
Provide roles and authentication to users					
Set criteria for all users (graduates, lecturers and employers).					
Static contents can be updated through online CMS					
Fully customizable graphic elements (directly from admin panel)					
Create / Edit / Save as many icon sets as you like					
Admin can Add/Edit/Delete/Approve/Disapprove any activities					
Site administrators have control over what is displayed in nearly all					

dropdown lists and list boxes throughout the site i.e.: "Functions", "Search Categories", "Employers ", "Graduates" etc.					
Alert send to administrator in case of non-normal activity by an user					
Database backup.					
Setup multiple admin with file access privileges.					
Other activities					

Section 4: General behaviour of the Integrated Graduate Portal

Rank these requirements in order of preference. Any features that are not important can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Easy login page					
Access software and information from anywhere					
Ability to send email notifications to candidates, members, or employers depending on their account status, right from administrative Panel.					
Automated Emails indicating that accounts have expired.					
Enables my department to set default options and create user accounts					
Extensive usage stats (For categories, members, new sign ups, resumes etc)					
Import data directly from existing database					

Section 5: Functionality to assist collaboration

Rank these requirements in order of preference. Any features that are not important to you can be left blank.

	1 st	2 nd	3 rd	4 th	5 th
Online chat for real-time communication					
Private messaging					
Discussion Forum					
Groups					
User Relationships					
Blog					
Collation/digest of e-mail groups					
Desktop videoconferencing					

Additional comments

Please provide any extra comment

Section 6: Mechanisms for being kept up to date

Rank the mechanisms by which you wish to be kept up to date on functions, resources, and other information.

	1 st	2 nd	3 rd
A What's New page when you logon to the Research Portal			
An e-mail alert containing information that I specify when it becomes available (e.g. updates on students or lecturers portfolio)			
An e-mail alert containing links to information that I specify when it becomes available (e.g. update on students skills or cv)

Please provide any other comments, including capabilities that you would like to see as part of the Integrated Graduate Portal.

APPENDIX E

Evaluation Questionnaire for Graduates

Dear Respondents:

This portal is an Integrated Graduate Portal (IGP) which is designed for facilitating graduate marketability in order to increase the graduates' chances of getting jobs. This portal will also help to bridge the gap between the university, employers and their graduates so as to increase the chances of graduates in getting jobs through the interaction between all the stakeholders involved. Lecturers will likewise be able to assist graduates through providing attestation and reference letters for graduates to prospective employers in the IGP. This form includes ten questions to evaluate this portal.

Thank you for your valuable time.

1. Does IGP showcase all your achievements such as skills, goals, professional mission statement and others?
a. Yes b. Not exactly c. Not at all
2. Is the required job information provided by employers in the IGP sufficient and enough for you?
a. Yes b. Not exactly c. Not at all
3. Is obtaining reference and attestation letters from lecturers in the IGP a good verification method for graduates?
a. Yes b. Not exactly c. Not at all
4. Is the IGP easy to create your online portfolio for marketability?
a. Yes b. Not exactly c. Not at all
5. Is IGP useful for searching available job vacancies for graduates?
a. Yes b. Not exactly c. Not at all
6. Is IGP easy for selecting your possessed skills?
a. Yes b. Not exactly c. Not at all
7. Is the task of private messaging useful in IGP?
a. Yes b. Not exactly c. Not at all
8. Do you think IGP is user-friendly?
a. Yes b. Not exactly c. Not at all
9. In general, is the IGP useful for graduates, employers and the university?
a. Yes b. Not exactly c. Not at all
10. Can the IGP facilitate graduate marketability?

- a. Yes b. Not exactly c. Not at all

APPENDIX F

Evaluation Questionnaire for Employers

Dear Respondents:

This portal is an Integrated Graduate Portal (IGP) which is designed for facilitating graduate marketability in order to increase the graduates' chances of getting jobs. This portal will also help to bridge the gap between the university, employers and their graduates so as to increase the chances of graduates in getting jobs through the interaction between all the stakeholders involved. Lecturers will likewise be able to assist graduates through providing attestation and reference letters for graduates to prospective employers in the IGP. This form includes ten questions to evaluate this portal.

Thank you for your valuable time.

Does IGP showcase graduates achievements such as skills, goals, professional mission statement and so on?

- a. Yes b. Not exactly c. Not at all

Is the IGP useful for available graduates' resumes?

- a. Yes b. Not exactly c. Not at all

Is IGP useful in finding graduates for employment?

- a. Yes b. Not exactly c. Not at all

Is obtaining reference and attestation letters from lecturers in the IGP a good verification method for graduates?

- a. Yes b. Not exactly c. Not at all

Is IGP useful for searching available job vacancies for graduates?

- a. Yes b. Not exactly c. Not at all

Is IGP easy for creating job vacancies and their requirements

- a. Yes b. Not exactly c. Not at all

Is the task of private messaging useful in IGP?

- a. Yes b. Not exactly c. Not at all

What do you think about IGP's interface design?

- a. Yes b. Not exactly c. Not at all

In general, is the IGP useful for graduates, employers and the university?

- a. Yes b. Not exactly c. Not at all

10. Can the IGP facilitate graduate marketability?
- a. Yes b. Not exactly c. Not at all
